EXPERIENCE

Universal Processing LLC

New York, NY

Software Engineer Intern

Jun 2026 - Present

- Developing an AI-powered technical support assistant using retrieval-augmented generation (RAG) to surface merchant wiki entries, historical support resolutions, and relevant account context for support agents.
- Prototyped a Twilio voice workflow with Flask webhooks, multilingual speech-to-text, LLM response generation, and text-to-speech for merchant call handling.
- Profiled first-turn latency across retrieval, embedding, and LLM stages; identified client lazy-initialization bottlenecks and moved initialization to startup to reduce perceived response delay.
